

Pipe laser TUBUS¹

Extremely robust, extremely compact, for professionals

®

Precise surveying
and measuring

Extremely robust pipe laser **TUBUS¹**

TUBUS¹ – the new pipe laser from Nedo.
Uncompromising quality for professionals, reliable and rugged for tough construction jobs

Thanks to its compact dimensions, in particular its short length, the **TUBUS¹** can even be used in tight pipe bends. The High-Power laser diode provides a long range and ensures clear beam visibility at all times.

Features:

- Extremely robust pipe laser
- Compact dimensions
- Reliable motor-powered levelling
- Simple gradient adjustment from -10% to +40%
- Perfect visualization of the operating state: green display for rising gradients, red display for falling gradients
- Remote control for easy manual pointing
- Red High-Power laser diode for a better visibility
- Rechargeable lithium-ion batteries for long operation and quick charging

Scope of delivery:

- Pipe laser **TUBUS¹**
- Remote control
- Rechargeable batteries and charger
- Adjustable in height target board
- Transport case

Specifications TUBUS¹ :	
Self-levelling range	- 15 % to + 45 %
Gradient range	- 10 % to + 40 %
Levelling accuracy	± 5 mm/100 m
Laser type	max. 5 mW, laser class 3R, 635 nm
Power supply	rechargeable batteries (Li-Ion)
Display resolution	0.001 %
Operation duration	approx. 40 h
Weight	approx. 3.5 kg
Dimensions	ø 140 mm length 270 mm
Operating temperature	- 20°C to + 50°C
Protection class	IP 68
Ref.-No.	472 200

Extremely robust pipe laser

Ref.-No. 472 200
